

# ConnectCarolina Portal

A new portal is scheduled to go live in mid-October 2013.  
What's a portal? It's an entryway into ConnectCarolina's applications.

In ConnectCarolina, **student services** is called **Student Information and Administration (SIA)**, to better reflect its functionality and purpose.

**Information and announcements on the landing page** alert you to new features or planned service outages.

The portal home page is **customized for you** and the work you do here at the University. In fact, many of the things you need access to are **just one click away**.

After the new portal goes live, use this new website address, then click to log in:  
**[connectcarolina.unc.edu](http://connectcarolina.unc.edu)**

The portal **accommodates ConnectCarolina's future expansion** to include:

- Student Information and Administration (SIA)
- Human Resources/Payroll
- Finance

After you log in, **take a minute to look around** ConnectCarolina's portal home page to orient yourself to the links and menus.

## IMPORTANT INFORMATION ABOUT YOUR FAVORITES

In preparation for the future expansion, the portal menu accommodates the additional menu options we'll have at that time. Any **Favorites you have now will need to be created again** in the new portal.

Sometime before the new portal goes live, write down the menu path you follow to get to your Favorites.

For each Favorite you've saved:

1. Go to that page.
2. Look at the navigation path, or breadcrumbs, near the top of the page.
3. Write down each step in the path.

You'll need this information when you save your Favorites in the new portal.

When you **save your Favorites in the new portal**:

1. Start with Main Menu, then click SIA Menu.
2. Following the path you wrote down before the relaunch, click through the menus until you find the page you want to mark as a favorite.
3. Click Add to Favorites.

To save a page as new favorite, navigate to that page, then click Add to Favorites.

### Announcements
