Top Issues

NEW! December Month-End Close: Central offices have officially closed the month of December. This includes the transmission and reconciliation of all December transactions, and state approval to close the month.

NEW! Clarification! Actual Earnings Distribution: A memo was sent on Feb. 11 to notify MOU Leads and Business Managers that some actual earnings for some biweekly and monthly December and January payrolls were not distributed correctly. To clarify, the issue relates to the distribution to the GL only, not the amount paid to employees, nor the direct deposits. More information will be shared as the team continues to work through approaches to correct the errors.

NEW! February Month-End Close Deadline: Journal entries, data collect batches and journal imports should be processed through at least departmental workflow by Feb. 27, at 5 p.m., in order to ensure the journal will be posted in February. Central Office (OSR, Accounting Services and the Budget Office) will ensure journals are posted if received by that date.

NEW! Queries for Campus Use: A budget journal query has been added to the list of Queries for Campus Use document. Find this and other resource documents at ccinfo > Training > Resource Document > Finance.

NEW! Voucher Error Troubleshooting: For users interested in identifying department vouchers that are held up with errors, the Voucher Matching and Error Troubleshooting Query document can help identify the nature of voucher errors and how to resolve them.

January Month-End Close: Central Offices (OSR, Accounting Services and the Budget Office) continue to work on December month-end close.

Questions
Users are encouraged to call the Help Desk when they are unsure who to contact for issue resolution. While users may have worked with a specific consultant or BA for another issue, any new issues must be submitted via a remedy ticket, not by calling an individual directly. This is the fastest way to obtain assistance and allows the project team to be able to track issues to determine the scale of the impact to all users.

All technical questions should be directed to the Business Systems Help Desk at 919-962-HELP, or submitted via a help ticket online at help.unc.edu (select ConnectCarolina > ConnectCarolina Finance > the appropriate area of concern).

Functional or business process questions – plus any tips you have to offer – can be added to the ConnectCarolina user discussion forums.
