## InfoPorte 6.7.2 Release Notes

The new InfoPorte 6.7.2 release includes enhancements and bug fixes for finance and HR InfoPorte users. These changes will be available on Saturday, October 22, 2016.

For more information, see the release notes for InfoPorte 6.7.2 here:

<https://ccinfo.unc.edu/files/2016/10/InfoPorte-6.7.2-Release-Notes.pdf>

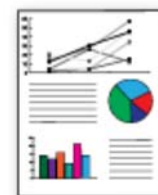

As a reminder: to implement the InfoPorte 6.7.2 release, there will be an outage of InfoPorte, the Enterprise Reporting data warehouse, and the SAS reports access through the InfoPorte interface beginning at 6:00pm on Friday, October 21, and running to 9:00pm on Friday, October 21. We appreciate your cooperation as we continue to improve InfoPorte.

## New RPT Query Manager Changes for October 24 - November 1, 2016

As part of the ConnectCarolina upgrade that is scheduled for the weekend of October 28-30, 2016, the project team will be rebuilding the RPT environment starting at noon on Monday, October 24 through 8am on Tuesday, November 1, 2016.

Any queries created or saved during that period won't be available in the upgraded RPT environment when it is live on Tuesday, November 1. All queries created and saved before noon on Monday, October 24 will be available for use during the week before the upgrade and will be moved to the upgraded RPT environment.

If you need to create or modify queries during the period October 24-31, you will be able to do so, but you will need to recreate those queries or changes in the upgraded environment. We recommend that you take a screenshot of your query or save it outside the system to make it easier to recreate.

We apologize for any inconvenience that this may cause. This work will minimize disruption after the upgrade is complete. Thank you for your understanding.
